WHY PRAXTION

Security-by-design with measurable, mission-relevant outcomes

Agile delivery that accelerates time-to-value while controlling cost

End-to-end coverage

- Strategy
- Build
- Operate
- Comply

CORE COMPETENCIES

Cybersecurity Engineering & Consulting

Strategy, architecture, zero-trust designs, Risk Management Framework (RMF)/Authorization To Operate (ATO) support, red/blue/purple teaming, incident response, and continuous monitoring.

Managed IT & Security Solutions

Service desk, endpoint/server management, RMM/EDR, vulnerability management, backup/DR, SIEM/logging, and vCISO.

Compliance (CMMC: Cybersecurity Maturity Model Certification & DORA: Digital Operational Resilience Act)

Gap assessments, SSP/POA&M development, control implementation, evidence production, and audit preparation for CMMC Level 2 and EU DORA programs.

Staff Augmentation

Cleared (SECRET/TS) cyber and IT professionals to surge program capacity and sustain mission delivery.

WHY CHOOSE US

Proven Experience Across Sectors

deep experience delivering secure, scalable IT and cybersecurity solutions to private sector, federal, state, and local government clients, including DoD and civilian agencies.

Certified & Contract-Ready

HUBZone, DC CBE, SBE, ROB, MWAA SLBE certified with multiple active contract vehicles (GSA MAS/HACS, DCSS, NGA IT Workforce), making procurement simple and streamlined.

Deep Cybersecurity Expertise

Registered CMMC Practitioner (RP) with expertise in CMMC Level 2, DORA, NIST 800-171, and RMF frameworks. We accelerate readiness with defensible evidence and automation.

End-to-End Technology Support

From Managed IT & Security Services to AI/Cloud enablement and staff augmentation with cleared personnel, we provide full lifecycle support tailored to mission needs.

Mission-Focused & Agile

Small business agility combined with enterprise-grade processes allows us to deliver solutions on time, on budget, and in compliance with federal standards.

Small Business Agility, Big Impact

We deliver scalable, cost-effective solutions withthe speed and responsiveness that larger firms can't match.

Cleared & Certified Professionals

Staffed with Secret and TS-cleared engineers holding top industry certifications (CISSP, CISM, CISA, CEH, PMP, SSCP), ensuring trusted delivery on sensitive programs.
